

**FLORIDA BOARD OF GOVERNORS
NOTICE OF PROPOSED AMENDED REGULATION**

DATE: April 1, 2022

REGULATION NUMBER AND TITLE: 8.013, Limited Access

SUMMARY:

access to these undergraduate programs and outlines the reporting requirements to ensure compliance with the regulation. The amendment also modifies the criteria for initial approval and continued approval of specialized admissions. The amendment allows the Board of Governors to consider approval of certain undergraduate degree programs as specialized admissions upon request by the university board of trustees if the programs meet one or more of the following criteria.

The number of students who meet all the requirements for admission to the university and the program exceeds available resources such as space, equipment, other instructional facilities; clinical facilities; required student-faculty ratios, fiscal, or other resource limitations. If approved, the status would last three years, after which the institution may reapply for specialized admission status.

The undergraduate program is of such nature that applicants must demonstrate through an audition or submission of a portfolio that they possess the minimum skills necessary to benefit from the undergraduate program. If approved, the status would last five years, after which the institution may reapply for specialized admission status.

The undergraduate program is accredited by a national, state, regional, or programmatic body and has either limited resources or requires minimal skills. If approved, the status would last three to five years, depending on whether the status was granted based on limited resources or required minimal skills.

In addition, institutions will be required to submit plans for increasing capacity in undergraduate programs seeking specialized admissions status due to limited resources and for programs classified as a Program of Strategic Emphasis.

FULL TEXT OF THE REGULATION IS INCLUDED WITH THIS NOTICE.
