

8.013 Specialized Admissions

(1) Specialized admissions status allows the university to establish additional criteria for admission to undergraduate programs. The Board of Governors may approve certain undergraduate degree programs as specialized admissions programs upon request by the university board of trustees if the programs meet one or more of the following criteria.

- (a) The number of students who meet all the requirements for admission to the university and to the program are in excess of available resources such as: space, equipment, or other instructional facilities; clinical facilities; required student-faculty ratios; fiscal or other resource limitations. In the case of such programs, selection for admissions shall be competitive.
 1. Admissions criteria for undergraduate programs approved based on this criterion may vary from academic year to academic year, depending on program capacity. Criteria changes should also be reasonable, taking into consideration prospective program applicants who may need to make adjustments to meet the new criteria.
 2. Undergraduate programs approved by the Board of Governors for specialized admissions due to limited resources will receive this status for a maximum of four years. At the end of four years, the university may reapply for specialized admissions status. If the university does not reapply at the end of four years, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
- (b) The undergraduate program is of such nature that applicants must demonstrate through an audition or submission of a portfolio that they possess the minimum skills necessary for them to benefit from the undergraduate program.
 1. Undergraduate programs receiving Board of Governors approval for specialized admissions because minimal skills are necessary will receive this status for a maximum of five years. At the end of five years, the university may reapply for specialized admissions status. If the university does not reapply at the end of five years, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
- (c) If the undergraduate program is accredited by a national, state, regional, or programmatic body that imposes requirements or limitations that necessitates the use of additional admissions criteria, the undergraduate program must also meet the criteria outlined in (1)(a) or (1)(b) to be considered for specialized admissions status.
 1. Undergraduate programs receiving Board of Governors approval for specialized admissions because of regulating body requirements and either (1)(a) or (1)(b) will receive this status for the maximum number of years associated with either (1)(a) or (1)(b). If the university does not reapply, the status shall be removed, and the university may no longer utilize additional criteria for admission to the undergraduate program.
