## New College of Florida

### Campus Report for ACFS

Feb. 13, 2014

1. Princeton Review named New College of Florida the #2 Best Value among all public colleges and universities

2. New College is focusing on those BOG performance based metrics that we would have focused on anyway, since they are also good goals for the college and its students, such as retention and the transition from college to work.

A. A. Retention: A new position, Dean of Studies, was created to pay greater attention to students having academic difficulty. Associate Professor Robert Zamsky is filling the position. He has created an advising web-page with check lists for faculty advisors. The college has instituted first-year writing courses for students who need to improve their writing. A similar effort in quantitative skills is being planned. The college has also enhanced the Student Support Team, a collaboration between Student Affairs and Academic Affairs, in order to intervene more quickly and effectively with students in need.

B. Transition from college to work: The college is increasingTm /TT6 (n) -0.2 s6ino (a) -0
