

Metrics	Illinois 4-Year Institution Metrics:	The Florida 10-Metric Model:
	Bachelor degrees awarded	<div data-bbox="964 155 1213 447" style="border: 1px solid black; padding: 5px;"> <p>1. Percent of Bachelor's</p> </div>
	Master's degrees awarded	
	Doctoral and Professional degrees awarded	
	Undergraduate degrees per 100 FTE	
	Research and public services expenditures	
	Graduation rates 150% of time	
	Persistence (24 credit hours completed in 1 year)	
	Cost per credit hour	
	Cost per Completion	
	<b>Note:</b> 3-year averages used for all metrics	

<b>Institutional Control</b>	Illinois institutions have no control over appropriation levels or choosing metrics for the performance funding model.	Florida institutions also do not have control over appropriation levels and institutions can control performance on outcomes within reason. However, the Florida 10-Metric Model does give institutions some control given that there is a metric chosen by institutional boards as part of the model.
